CALL FOR MASTERS FELLOWSHIP APPLICATIONS

Supporting Young Talented Female Scientists to Become Future Leaders

CLOSING DATE: *June 30 2019*

ACE II

Eastern and Southern Africa
Higher Education Centers of Excellence Project

BACKGROUND

The World Bank is partnering with eight Governments in Eastern and Southern Africa in an innovative project with the aim of improving the quality of training and research in higher education, and reducing the skill gaps in key development priority areas. The Eastern and Southern Africa Higher Education Centers of Excellence (ACE II) Project supports the governments of Ethiopia, Kenya, Malawi, Mozambique, Rwanda, Tanzania, Uganda, and Zambia in strengthening selected African Centers of Excellence (ACEs) to deliver quality post-graduate education and build collaborative research capacity in the following priority areas: (i) Industry, (ii) Agriculture, (iii) Health, (iv) Education, and (v) Applied Statistics. The ACE II Project implements three components, namely (i) strengthening the 24 higher education institutions into regional ACEs in Eastern and Southern Africa in a set of defined regional priority areas (US\$ 140 million); (ii) providing capacity building support to these ACEs through regional activities (US\$3 million); and (iii) supporting coordination and management of the implementation of components (i) and (ii) (US\$5 million).

As Regional Facilitation Unit (RFU) for the ACE II Project, the Inter-University Council for East Africa (IUCEA) leads the implementation of key elements of Component 2 of the project, aimed at building strong and sustainable regional partnerships and collaborations to produce competent Masters and PhD holders for the regional market and improve quality of teaching in higher education, and the quality of production and services in public and private sectors. To encourage the participation of young African female students at postgraduate level, IUCEA wishes to implement a Fellowship Program aimed at providing competitive Masters Scholarships to academically deserving future talents to promote regional female student mobility. Eligible female applicants who can demonstrate interest and ability in the priority

areas are encouraged to apply for the 30 Fellowships available for the 2019/2020 academic year.

ELIGIBILITY CRITERIA

In order to be eligible for this Fellowship, the applicant must:

- i) be a female national of one of ACE II participating countries (Ethiopia, Kenya, Malawi, Mozambique, Rwanda, Tanzania, Uganda and Zambia) or Burundi
- ii) be under the age of thirty five (35) years
- iii) be a holder of a Bachelor's Degree from a reputable university in the relevant field, at the level of Upper Second Class Honours
- iv) have obtained admission from an ACE **outside one's own country** of current nationality to study full-time in any of the priority disciplines of the ACE II Project: (i) STEM (Science, Technology, Engineering and Mathematics) or Industry, (ii) Agriculture, (iii) Health, (iv) Education, and (v) Applied Statistics; and
- v) have demonstrated outstanding academic achievement as evidenced by academic transcripts, and academic awards, if any.

ELIGIBLE SECTORS/DISCIPLINES

The Fellowship Program will provide support in the following broad areas of activities:

- i) **Industry.** In general, Eastern and Southern African countries experience low and, in some cases, declining levels of enrolment in areas associated with the growing industrial sectors which require skills in Science, Technology, Engineering and Mathematics or Industry – STEM. Thus, there is huge demand for graduates in emerging sectors with high growth potential such as oil and gas, energy, extractives, and railways industries across the region. This Fellowship will contribute to improved availability of skilled professionals with specialized knowledge who can innovate and boost productivity in the STEM areas, such as engineers (civil, petroleum, and mechanical), geoscientists, mechanical technicians, etc.
- ii) **Agriculture:** Low levels of agricultural productivity has contributed to shortage of food and overall food insecurity due to skills and labour constraints, as well as the slow adoption of technology. Primarily this low productivity is caused by factors such as frequent droughts, rampant diseases (crop and livestock), unimproved crop varieties, lack of access to quality seeds/fertilizers, and poor management of water resources. To address these challenges, this Fellowship will contribute to training of female graduates to become agribusiness specialists/managers, crop scientists, plant breeders, veterinarians, agronomists, water and irrigation engineers, and food preservation and processing specialists, who will contribute to innovative research and teaching for agricultural advancement, improved nutrition, and agricultural sustainability.
- iii) **Health:** There is low life expectancy in Eastern and Southern African region. Both infectious and non-infectious diseases account for highest proportion of illness in the region, and include malaria and tuberculosis and other diseases that may have been eliminated elsewhere. Infectious diseases are also a major constraint to both the export of African livestock and the spread of diseases from animals to humans. This Fellowship will

address development challenges in the areas of infectious diseases, public health, and drug development through training and research in molecular biology, analytical epidemiology, traditional medicine, and pharma-biotechnology.

- iv) **Education.** Poor education quality, especially at the primary and secondary levels, is a significant obstacle to higher education access and outcomes. Poor teaching competencies, particularly in mathematics and science, are a barrier to the production of high-quality graduates and faculty in the field. This Fellowship will contribute to improved quality of tertiary education, leading to improved learning outcomes in the STEM disciplines.
- v) **Applied Statistics.** The absence of reliable and accurate data, data management systems, and skilled statisticians is a serious constraint to policymaking, adequate analysis of development challenges, and monitoring and evaluation (M&E) of interventions. In sub-Saharan African countries, across various sectors, there is a severe shortage of highly trained statisticians and of good quality data. This makes it difficult to provide analyses, plan and monitor interventions, inform fact-based policy, and track progress. This Fellowship will contribute to capacity of research and training within higher education, with a focus on providing improved statistical skills.

Detailed information about eligible sectors and Universities/ACEs offering postgraduate training in the above listed priority areas may be obtained from <https://ace2.iucea.org>

THE FELLOWSHIP AWARD

The provided financial support for each Fellowship Program will cover:

- i) **University tuition fees:** Approximately USD 3,000 per year (payable directly to the Host University according to an official invoice)
- ii) **Stipend:** USD 800 per month to support living expenses such as housing, food, utilities, local transportation, medication and settlement expenses
- iii) **Research:** USD 4,800 to support student research, payable upon approval of research proposal
- iv) **Allowance:** USD 2,000 one-off allowance to cover visa, laptop and books
- v) **Air ticket:** A round-trip economy fare for the most direct route between the beneficiary's home country and the study destination of Host University

Note: Candidates must complete all academic work within 24 months and this scholarship will not be extended beyond this period.

APPLICATION PROCESS AND PROCEDURES

To apply for this Fellowship, interested candidates are advised to fill in the application form found at ace2.iucea.org or www.iucea.org attach all requested documents, and send by e-mail to exsec@iucea.org with a copy to ace2rfu@iucea.org. All applications must be received not

later than 5.00 PM East African Time on ***June 30 2019***. For proof of eligibility, an applicant should ensure that the following is provided:

- i) Completed application form;
- ii) Recent passport-size photograph;
- iii) Summarized CV with names and contacts of two referees;
- iv) Certified copies of academic certificates and transcripts;
- v) Certified copies of passport or national identity card indicating citizenship;
- vi) Copy of admission letter from one of the host universities (please refer to the attached table on Countries, ACEs and Universities); and
- vii) Two (2) reference letters with contact details.

MASTERS FELLOWSHIP APPLICATION FORM

Supporting Young Talented Female Scientists to Become Future Leaders

ACE II

Eastern and Southern Africa
Higher Education Centers of Excellence Project

WORLD BANK GROUP

REFERENCE NUMBER (for official use only)	DATE RECEIVED (for official use only)	FIX PASSPORT PICTURE HERE
--	---	--------------------------------------

Instructions of how to complete application form

1. Please complete the application form in **type**, or write in CAPITAL letters and BLACK ink;
2. Please quote your e-mail address, as all correspondence will be via e-mail;
3. Please make a copy of the form for yourself before sending it to IUCEA/RFU;
4. Fill in all the sections, otherwise delays will occur when processing your application;
5. Submit dully filled applications form and documents (scanned and hardcopy) to exsec@iucea.org with a copy to ace2rfu@iucea.org.

6. The closing date for fellowship applications is June 30 2019. Applications received after the closing date will not be considered.

A. PERSONAL DETAILS (as they appear on your passport)

Last Name	First Name	Other Names	Gender
.....			
Date of Birth	Nationality of Birth	Current Nationality	
.....			
Passport Number	Place of Issue	Date of Issue	Date of Expiry
.....			
Contact Details			
Physical address			
Phone number			
Email address			

B. PROGRAMM OF STUDY

Title of the degree program admitted to:	Admission letter (tick where appropriate)	
	Provisional admission	
	Full admission	
Name of contact details of the University	Name and contact details of the ACE	
.....		
.....		
.....		
.....		
.....		

C. ACADEMIC HISTORY AND QUALIFICATIONS

Please list academic qualifications and grades obtained starting with the most recent:

Dates attended	School, University, Collage / Country	Qualification name (e.g. Certificate of Secondary School, Certificate of High School, BSc in)	Grade/Class	Date obtained (DD/MM/YY)

D. WORK EXPERIENCE

Please describe any work experience relevant to your proposed study program, starting with your most recent position

Date of employment	Name of the organization	Job title and responsibilities

E. Publications, Conference papers and awards

Please list articles you have published or presented in conferences and awards obtained, if any

Date of publication	Title of the article/Paper	Name of the Journal or Conference

F: PERSONAL STATEMENT

Please tell us about your academic achievements and ambitions. In particular, explain why you have chosen your particular field of study and its importance to the region's development:

G. REFERENCES

Name of the Referee	Position	Contact details
1.		
2.		

H: DECLARATION

I hereby declare that I have understood and comply with the eligibility criteria and make a true statement about my details.
